\* **Major Capsaicinoids** refer to the volume by weight of a group of chemical compounds producing the sensation of felt heat or pungency, known as capsaicinoids, in a given solution.

\*\* **ECD Safe** refers to the safety of the aerosol defense option when used in conjunction with an electronic control device during the foreseeable circumstances of a law enforcement or corrections encounter.

\*\*\* **Inert Formulations** have no active ingredient, but the same physical dimensions, propellant, formulations weights, effective range and warranty as their live counterparts.

All specifications are average and are subject to change without notice.
