

# The Next Generation in Disposable Restraints

## *Sold Exclusively by CTS-Thompson Handcuffs+Restraints*

## The Jersey Cuff™

The patented Jersey Cuff™ is the lightest, smallest, safest and most versatile disposable cuff in the world. The Jersey Cuff™ is made to withstand extreme weather and operational environments. The Jersey Cuff™ can fit into a jacket or pant pocket, in a molle strap or in one of the custom designed operational pouches.

**Tac-Pac™** - For tactical or duty patrol, the Tac-Pac™ holds four Jersey Cuffs and a safety cutter in a compact configuration.

**G-Pac™** - For tactical or crowd management teams, the G-Pac™ is designed to carry a gas mask and filter with 20 Jersey Cuffs. The G-Pac™ attaches to equipment in multiple ways: like a drop-style holster, attaching to a molle system, with D-Rings or a sling.

**Evac-Pac™** - For mass arrest during a riot or jail evacuations, the Evac-Pac™ holds 96 Jersey Cuffs and 4 safety cutters. The Evac-Pac™ is designed for quick deployment and easy carry with the handle or sling.

Made in the U.S.A.  
Sold exclusively by Combined Systems, Inc.

# CTS has expanded their portfolio of Breaching Products

## *New offerings include JTC Breaching Tools*

**THE LEVER™**  
Model  
L-4002-MS

## CTS Breaching Options

**The Claw™** (patent pending) - Is a hybrid forcible entry tool that all members of your tactical or patrol can use effectively. Constructed of the highest quality materials and weighing in at only 10 pounds, The Claw™ combines the operations of a Halogen, sledge hammer, pry bar, window rake, door ram, axe and many more all into one tool.

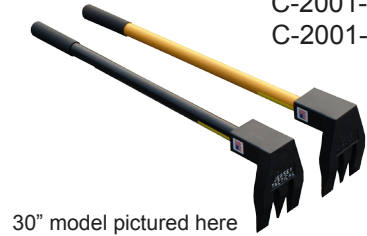

**The Lever™** - For OEM/FEMA/NATURAL DISASTER RESCUE Missions. The Lever™ Coupled with The CLAW™ allows a single operator to move hundreds of pounds of debris in emergency with a single operator.

**The Jersey Boot™** (patent pending) - Weighing only 24.5 lbs, The Jersey Boot™ is a revolutionary breaching tool for inward and outward swinging doors even in close quarters. The Jersey Boot™ is the only ram enabling higher door strikes and combines the operations of break and rake, lock busting, a sledge, door chock and even a tactical step.

**Twin Ram™** - At less than 60 lbs fully assembled, the Twin Ram™ can defeat fortified doors or dismantle brick and cinder block wall. The Twin Ram™ features a standard 5X5 strike plate at one end and a custom hardened steel wedge at the other end.
