All performance specifications are based on testing conducted in Jamestown, PA USA, at an elevation of 1,000 feet above sea level at ambient temperature conditions.

NOT TO SCALE

MK-9/MK-20 Wand Attachment:

This item is attached to the MK-9 or MK-20 unit through a specially designed actuator to allow an officer to insert the metal wand tip through drywall or into a slot in a prison door. The OC can then be deployed through the wand into the adjacent room/area.
